At Last, A Davenport Both Useful and Beautiful

Everyone admits the utility of a Davenport that can be converted into a bed, but the trouble with most Davenports has been that you could always tell they were the convertible kind.

Their utility outshone their beauty. Now we have a Davenport so ingeniously made that you would never think of it as the convertible kind unless you were into the secret. It is handsomely made, beautifully upholstered in leather.

Best of all the price is very reasonable.
